#### Finding

290-2-3-.07(7) requires that the Provider, Employees and Provisional Employees with direct care responsibilities shall complete health and safety orientation training within the first 90 days of employment. The state-approved training hours obtained will count toward required first year training hours. The training must address the following health and safety topics: prevention and control of infectious diseases (including immunizations); prevention of sudden infant death syndrome and use of safe sleeping practices; administration of medication, consistent with standards for parental consent; prevention of and response to emergencies due to food and allergic reactions; building and physical premises safety, including identification of and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water, and vehicular traffic; prevention of shaken baby syndrome, abusive head trauma and child maltreatment; emergency preparedness and response planning for emergencies resulting from a natural disaster or a human-caused event (such as violence at a child care facility); handling and storage of hazardous materials and the appropriate disposal of bio contaminants; precautions in transporting children; recognition and reporting of child abuse and neglect; and child development. It was determined based on a review of records that staff # 3, hire date 12/17/2017 did not have evidence of the required health and safety training on file.

# POI (Plan of Improvement)

The Provider will complete the required training and will ensure any Employees or Provisional Employees complete the training. The Provider will develop a plan to ensure that any new Staff hired complete the training as required.
