If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. Finding

591-1-1-.33(3) requires each Staff member with direct care responsibilities to complete health and safety orientation training within the first 90 days of employment. The state-approved training hours obtained will count toward required first year training hours. The training must address the following health and safety topics: prevention and control of infectious diseases (including immunizations); prevention of sudden infant death syndrome and use of safe sleeping practices; administration of medication, consistent with standards for parental consent; prevention of and response to emergencies due to food and allergic reactions; building and physical premises safety, including identification of and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water, and vehicular traffic; prevention of shaken baby syndrome, abusive head trauma and child maltreatment; emergency preparedness and response planning for emergencies resulting from a natural disaster or a human-caused event (such as violence at a child care facility); handling and storage of hazardous materials and the appropriate disposal of bio contaminants; precautions in transporting children; recognition and reporting of child abuse and neglect; and child development. It was determined based on a review of records, staff member #1, hire date August 31, 2021, did not complete health and safety orientation within the first 90 days of employment.

POI (Plan of Improvement)

The Center will develop and implement a plan to schedule and track this training for all employees based on their hire dates and will ensure that the training includes all required components as required.
