Comments

The purpose of this visit was to conduct a monitoring visit. The program stated that they do not provide swimming activities or administer medications. Transportation rules were evaluated during the visit.

Plan of Improvement: Developed This Date 03/31/2023

Any rule violation which subjects a child to injury or life-threatening situation or any rule violations previously cited but not corrected, may result in the imposition of an adverse enforcement action. Serious or continued noncompliance may also jeopardize participation in one or more DECAL program(s).

Please refer to the website, <http://www.decgal.ga.gov/CCS/RulesAndRegulations.aspx> , for information regarding October 1, 2018 rule changes about Criminal Records Checks that may affect your facility. In summary,

- New records checks will be required to be completed if a staff member experiences a six month break in service from the child care industry
- New clearance is required at least once every five years
- Any staff member solely responsible for supervising children will be required to have completed a comprehensive background clearance
- All staff members are required to have completed at least a national fingerprint based clearance check
- Any staff member with only the national fingerprint based clearance, must be under constant and direct supervision of a staff member with a satisfactory comprehensive records check clearance
- Facilities are required to use DECAL KOALA for Criminal Records Checks, including to verify portability of an employee

O.C.G.A. Section 42.1.12(i)(2) requires Bright from the Start: Georgia Department of Early Care and Learning to notify licensed child care programs on accessing and retrieving from the Georgia Bureau of Investigation's (GBI) website a list of the names and addresses of all registered sexual offenders. Please see GBI's website located at <http://gbi.georgia.gov> to access the Georgia Sex Offender Registry.

Refutation Process:

You have the right to refute any of the citations noted in this report with which you disagree. To refute a citation(s), do the following:

- 1) Log into DECAL KOALA www.decalkoala.com with the userid for your program
- 2) On the home page scroll down to the Inspection Reports and select 'Refute Citation' for the visit report in dispute
- 3) Select the specific rule number(s) that you are refuting, add the reason for disagreement regarding the rule citation, and upload supporting documentation
- 4) Submit the refutation in DECAL KOALA to Child Care Services (CCS) within 10 business days of the completion date.

Your refutation will be forwarded to the appropriate CCS manager, who will follow up with you about your concerns. If you have any questions about this process, contact our office at 404-657-5562.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

Important Quality Rated/CAPS Update:

As January 1, 2022, child care providers must be Quality Rated to receive Childcare and Parent Services (CAPS). Newly licensed, or new to CAPS providers may be eligible for the new CAPS/QR Provisional Status, allowing for scholarships while working toward a star rating.

Center does not provide swimming activities.

Facility

591-1-1-.19 License Capacity(CR)

Met

Comment

Licensed capacity observed to be routinely met by center.

591-1-1-.25 Physical Plant - Safe Environment(CR)

Met

Comment

Center appears clean and well maintained.

Finding

591-1-1-.26(4) requires that playgrounds be protected from traffic or other hazards by a (4) four foot high fence or other barrier approved by this Department. Fencing material shall not present a hazard to children and shall be maintained so as to prevent children from leaving the playground area by any means other than through an approved access route. Fence gates shall be kept closed except when persons are entering or exiting the area. It was determined based on observation that the following fence hazards were observed:

- On the infant playground there was a seven-inch by 24-inch gap at the bottom of the fence panel between the infant and school age playgrounds.
- On the back playground in the back right corner there was a fence panel that was falling at the top. Additionally, the panel was not secure at the bottom and metal spokes were turned upwards presenting a hazard to the children in care.

POI (Plan of Improvement)

The Center will routinely check the fence to determine if it is in good repair and remains at least 4 feet high, and will repair any hazards. The Center will train Staff to identify and report any fence hazards and to keep the fence gates closed when not in use.

Correction Deadline: 4/30/2023

Recited on 3/31/2023

Finding

591-1-1-.26(9) requires the playground to be kept clean, free from litter and free of hazards, such as but not limited to rocks, exposed tree roots and exposed sharp edges of concrete. It was determined based on observation that the following playground hazards were observed:

- On the toddler playground there was a medium sized active ant bed in the front back corner near the parking lot.
- On the back playground there were several tree roots on the side of the climbing piece presenting a potential tripping hazard to the children in care.

POI (Plan of Improvement)

The Center will remove any litter and fix or remove hazards from the playground and will routinely monitor the playground and remove litter and hazards.

Correction Deadline: 4/14/2023

Health and Hygiene

Finding

591-1-1-.10(4) requires that if diapers are changed on a diaper changing surface, the surface shall be smooth, nonporous, and equipped with a guard or rails to prevent falls. Between each diaper change, the diaper changing surface shall be cleaned with a disinfectant and dried with a single-use disposable towel. It was determined based on observation that two diapers were changed in the infant classroom and the diapering changing surface was not cleaned between diaper changes as required.

POI (Plan of Improvement)

The Center will ensure there is a smooth, nonporous changing surface that has a guard or rails for safety in each classroom that houses children wearing diapers. Center Staff will be trained and have adequate supplies to properly clean the diaper changing surface between each diaper change.

Correction Deadline: 3/31/2023

591-1-1-.17 Hygiene(CR)**Not Met****Finding**

591-1-1-17(7) requires that children wash their hands with liquid soap and warm running water upon arrival for care, when moving from one child care group to another, upon re-entering the child care area after outside play, before and after eating meals and snacks, handling or touching food, playing in water; after toileting and diapering, playing in sand, touching animals or pets, and contact with bodily fluids and after contamination by any other means. It was determined based on observation that two children's diapers were changed and the children's hands were not washed with warm running water and liquid soap after the diaper change as required.

POI (Plan of Improvement)

The Center will train Staff on required handwashing for children and Staff will ensure children's hands are washed when required. The Director will monitor for compliance.

Correction Deadline: 3/31/2023

591-1-1-.20 Medications(CR)**Met****Comment**

The Provider currently does not dispense/administer medication.

Safety

591-1-1-.11 Discipline(CR)**Met****Comment**

Staff were observed to maintain a positive learning environment on this date.

591-1-1-.36 Transportation(CR)**Met****Correction Deadline: 9/30/2022****Corrected on 3/31/2023**

.36(4)(b) - This citation was corrected on this date. The vehicle's interior was observed to be in good condition on this date.

Sleeping & Resting Equipment

591-1-1-.30 Safe Sleeping and Resting Requirements(CR)**Not Met****Technical Assistance**

591-1-1-.30(1)(a)3 requires that each crib shall have only an individual, tight-fitting sheet which is changed daily or more often as needed and prior to a change of occupant.

The consultant spoke with the Director about ensuring that crib sheets are tight-fitting and in good condition as required. One unoccupied crib had a sheet with a hole on the side. The sheet was removed during the visit and replaced with tight-fitting sheet that was in good condition.

Correction Deadline: 3/31/2023

Finding

591-1-1-.30(2) requires the Center to provide a safe sleep environment in accordance with American Academy of Pediatrics (AAP), Consumer Product Safety Commission (CPSC) and American Society for Testing and Materials (ASTM) recommendations as listed in these rules for all infants. Center Staff shall place an infant to sleep on the infant’s back in a crib unless the Center has been provided a physician’s written statement authorizing another sleep position for that particular infant that includes how the infant shall be placed to sleep and a time frame that the instructions are to be followed. When an infant can easily turn over from back to front and back again, Staff shall continue to put the infant to sleep initially on the infant’s back but allow the infant to roll over into his or her preferred position and not re-position the infant. Sleepers, sleep sacks and wearable blankets that fit according to the commercial manufacturer’s guidelines and will not slide up around the infant’s face may be used when necessary for the comfort of the sleeping infant. Swaddling shall not be used unless the Center has been provided a physician’s written statement authorizing its use for a particular infant that includes instructions and a time frame for swaddling the infant. Center Staff shall not place objects or allow objects to be placed in or on the crib with an infant such as but not limited to toys, pillows, quilts, comforters, bumper pads, sheepskins, stuffed toys, or other soft items and shall not attach objects or allow objects to be attached to a crib with a sleeping infant, such as, but not limited to, crib gyms, toys, mirrors and mobiles. It was determined based on observation that one child was sleeping in a crib and a blanket was laying over the side of the crib near the child's head.

POI (Plan of Improvement)

The Center will take all steps necessary to provide a safe sleep environment for infants as listed in these rules; will train Staff to follow these rules; and will monitor for compliance.

Correction Deadline: 3/31/2023
