Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. Finding

290-2-3-.10(8) requires that food be served according to manufacturer's instructions and recommendations. Foods that are associated with young children's choking incidents, such as, but not limited to, peanuts, hot dogs, raw carrots, popcorn, fish with bones, cheese cubes, grapes and any other food that is of similar shape and size of the trachea/windpipe shall not be served to the children less than four (4) years of age. Children older than four (4) years of age may be served these foods provided that the foods are cut in such a way as to minimize choking. Food shall not be accessible or served to children until it has been chopped, diced, cut or mashed and is appropriate for each child's age and individual eating, chewing and swallowing ability. It was determined, based on review of records, that the Home's menu indicated that enrolled children were served string cheese and block cheese sticks, when it was required that these items not be served to children less than four years of age due to the similar shape and size of the trachea/windpipe.

POI (Plan of Improvement)

The Home will train Staff and monitor food served and accessible to children to ensure that the food does not present a choking hazard.

Health and Hygiene

290-2-3-.11 Children's Health and Hygiene(CR)

Not Met

Finding

290-2-3-.11(1)(j) requires children’s hands to be washed with liquid soap and warm running water: immediately upon arrival for the day and re-entering the child care area after outside play; before and after eating meals and snacks, handling or touching food, and playing in water; after toileting and diapering, playing in sand, touching animals or pets, contact with bodily fluids such as, but not limited to, mucus, saliva, vomit or blood, and after contamination by any other means. It was determined, based on observation and provider statement, that the children did not wash their hands with warm running water and liquid soap immediately upon arrival for the day, as they used hand sanitizer instead. It was further determined that children did not routinely wash their hands after diapering, as required.

POI (Plan of Improvement)

To ensure proper hygiene, all children will wash their hands with liquid soap and warm running water as required.
