Finding

591-1-1-.08(7) requires the Center to ensure that children are only released to authorized person and that Center Staff take necessary steps to determine that any such person presenting to pick up a child in care is authorized by the Parent of the child and that person matches the identifying information provided by the Parent. It was determined based on evidence which included a parent interview, an interview with the person that picked up the child and interviews and statements with the staff, the allegation of center failure to allow a two-year-old child to be picked up by an unidentified person and not requesting identification is substantiated. Evidence showed that although staff knew the procedure, staff failed to request identification or the name of the person picking up the two-year-old child for the very first time.

POI (Plan of Improvement)

The Center will develop/maintain procedures for releasing children and will train Staff.

Correction Deadline: 10/1/2021
