Finding

591-1-1-.15(2)(c) requires age-appropriate solid foods (including cereal) not be given to infants or children less than one (1) year of age until recommended as developmentally appropriate by the child's primary care physician and indicated in writing by the Parent(s) and requires a child to be fed from individual spoons and individual containers or dishes as soon as the feeding plan indicates that a child is ready for solid foods. A child shall not be fed directly from the original baby food container if the contents are to be fed to the child at more than one (1) meal or to more than one (1) child. It was determined based on observation that in classroom A of Building 1 there were two (2) of twelve (12) bottles that had cereal mixed in with the formula.

The Center will ensure that age-appropriate solid foods are given only as recommended by the child's physician and upon written instruction by the Parent(s).
