**Findings:**

General: Based on Interview, a parent was notified on 12/1/17, by the facility staff in charge, that she needed to pick her child up from the daycare because a staff member was holding the child's hand to go outside and the child dropped to the floor hurting her arm. The staff stated that the child was crying and favoring her arm. The facility staff was notified by the child's parent on 12/1/17 (around nap-time when she picked the child up) that she was going to take the three (3) year-old child to the hospital to seek medical treatment because the child appeared to be in pain and she was favoring her arm. The facility owner called the Division of Regulated Child Care and self-reported the incident on 12/5/17. This was not within twenty-four (24) hours of when the parent notified the staff that she was seeking medical treatment for her child.

<b>922 KAR 2:110. Section 4. Director Requirements and Responsibilities.</b>		
<b>(1) Effective with the adoption of this administrative regulation, a director shall:</b>		
<b>(I) Provide for the health, safety, and comfort of each child;</b>		
<b>Findings:</b>		
<p>General: Based on Observation, of a video recording on 12/1/17 a three (3) year-old child was grabbed by one (1) arm by a staff member resulting in the child having a dislocated elbow. The child had to seek medical treatment to put the elbow back in place. The video recording did not show the same information as to what the staff member wrote in the injury or accident report dated 12/1/17. The staff member indicated in the injury or accident report that the child was pushing another child as they were standing in line to go outside. The video recording did not show the three (3) year-old push a child and the children were not in line to go outside. The video recording showed the children getting their coats on to go outside and the child was standing around the teacher and the teacher grabbed the child by one (1) arm and lifted her up and then put her down. The injury or accident report further states that the child was taken to the office when she continued to cry. The video recording showed the class line up and go outside and a few minutes later the child was taken inside to the office. The facility terminated the staff member's employment.</p>
