| <p>922 KAR 2:120. Section 2. Child Care Services. (3)(a) Each center shall maintain a child-care program that assures each child will be: 1. Provided with adequate supervision at all times by a qualified staff person who ensures the child is: a. Within scope of vision and range of voice; or b. For a school-age child, within scope of vision or range of voice;</p> <p>Findings: Based on interviews, the following was found: Two (2) school aged children were left in a wooded area on the facility's premises for an unknown amount of time identified as anywhere from three to ten (3-10) minutes. These children were playing in the woods with their teachers and class when the teachers, as well as the other children left the wooded area. The teachers reportedly yelled for the whole class to come inside for snack, but these two (2) children did not follow and were left in the wooded area. The children in the class were not counted until the group was inside. At that point, it was realized the two (2) children were missing. It should be noted that there were other teachers outside at the time of the incident. However, these teachers were not in charge of these two children and did not know the children were left behind in the wooded area. When the two (2) children came out of the woods, a teacher saw them and took them to the classroom where they needed to be.</p> | |
