<p>922 KAR 2:120. Section 2. Child Care Services. (3)(a) Each center shall maintain a child-care program that assures each child shall be: 1. Provided with adequate supervision at all times by a qualified staff person who ensures the child is: a. Within scope of vision and range of voice; or b. For a school-age child, within scope of vision or range of voice;</p> <p>Findings: General: Based on review of documentation, per video footage, a two-year-old child was outside on the playground with her class and her teacher. There were a total of 6 children that day on the toddler playground. The two-year-old victim was initially in the playhouse with other children and then the children came out of the playhouse. The victim was then seen on the ground playing when another two-year-old child got on top of the victim, bit the victim on the arm and back, scratched the victim on the face and even pulled off the victim's shirt. At the time of the incident the victim's teacher was up against the fence line talking to other staff on the older playground and not supervising her class. It was not known exactly what prompted the child to hurt the victim. After a couple of minutes, another staff person on the older playground noticed the victim crying and holding her shirt. Staff stated that first aid was administered to the victim and the parent was notified of the incident.</p>
