**Findings:**

General: Based on interview and review of documentation, this regulatory requirement was not met. During the investigation it was found on the facility Video footage and interview that a staff member was restraining a child during the nap time. The staff member was observed on the video on 2/1/2022 at 36:51 putting a blanket on a child while she is laying on her stomach on a cot then leans over her body and puts his face next to her face. Also, it was observed at 49:09 that a same staff member holds down same child by laying on top of her, faces away. At 54:47 the staff member gets the same child off the cot and places her between his legs, wraps his leg around her and places left arm across her and under her neck to restrict her movement for about six (6) minutes.
