480 - Infant/Toddler Combined with Older Children

922 KAR 2:120. Section 5. Infant and Toddler Play Requirements.
(2) Except in accordance with subsection (3) of this section or Section 2(2)(c) of this administrative regulation, an infant or toddler under twenty-four (24) months of age shall not participate in an activity with an older child for no more than one (1) hour per day.
(3) If a toddler is developmentally appropriate for a transition to a preschool age group, a toddler may participate in an activity with an older child for more than one (1) hour per day if:
(a) Space for the toddler is available in the preschool-age group;
(b) The staff-to-child ratios and group sizes are maintained based on the age of the youngest child;
(c) The center has a procedure for listing a transitioning toddler on attendance records, including a specific day and time the toddler is with either age group; and
(d) The child care center has obtained the signature and approval of the toddler's parent on the toddler's transition plan.

Findings:

General: Based on interview, it was found that a child who had not turned three years old had been transitioning into the three- to five- year-old classroom for more than one hour a day. Further interviews with staff found that a transition plan, written procedure and the approval and signature of the child's parent, had not been obtained.
