520 - Floors, Walls, Ceilings		Not In Compliance
922 KAR 2:120. Section 4. Premises Requirements.		
(9) Floors, walls, and ceilings shall be smooth, in good repair, and constructed to be easily cleaned.		
Findings:		
General: Based on observation and interview, the surveyor found the following:		
(1.) The ceiling in the Infant Classroom was stained with brown spots. The staff in charge stated that they were from water damage. The drywall near the top of the ceiling was peeling.		
(2.) The laundry room ceiling tiles were observed to have water damage. The ceiling tiles were brown with damp spots. The ceiling tiles are located above an electrical box on the wall of the laundry room.		
(3.) In a classroom located downstairs, the ceiling tiles were observed to be wet with light brown stains on some of the tiles. Multiple ceiling tiles were observed to be wet. There was no dripping water at the time of the visit. No children were using the classroom during the surveyor's visit.		
(4.) The ceiling located in the employee's break room was observed to be damaged. The dry walled ceiling was peeling with brown stains.		
The owner of the child care center is planning to move to a new location.
