5 - Children Supervised	Not In Compliance
922 KAR 2:120. Section 2. Child Care Services. (3)(a) Each center shall maintain a child-care program that assures each child will be: 1. Provided with adequate supervision at all times by a qualified staff person who: a. Ensures the child is within scope of vision and range of voice; or b. For a school-age child, within scope of vision or range of voice;	
Findings: Based on Interview, it was determined that, while changing diapers in the Ones classroom, the staff have their back to the children. The children are not properly supervised while staff change diapers. The changing area, sink and cabinets are positioned in the middle of a large classroom. One half of the room is used as the Ones classroom and the other half is gated off and is used for storage. During the investigation a staff person lifted a child onto the changing table to undress the child and was facing the storage side of the room. The staff person's back was to the children and the classroom side of the room. There were no other staff present in the room.
