	No. of Children Present: 15	

Inspection Report	
Supervision	In Compliance
Staffing Requirements	In Compliance
Food Service	Not In Compliance
1015 - Food Service Permit	Not In Compliance

922 KAR 2:120. Section 8. Kitchen Requirements.
(2) A child-care center required to have a food service permit shall be in compliance with 902 KAR 45:005 and this administrative regulation.

Findings:

General: Based on interview, this regulatory requirement was not met. Interviews with staff found that after a visit from the health department on 5/8/19 the facility was placed on probation due to violations cited during the visit. It was reported that the center was cited for not having a mop sink and they were given ten (10) days to correct the violation. Staff interviews found that the facility was issued citations for dust in the kitchen cabinets, cobwebs on the ceiling, a dirty can opener and tile missing on the floor where the water heater is located. On the date of this survey one follow-up visit had been made by the health department. A document posted on a board at the front of the facility showed the facility had received a score of 100 during the follow-up.
