<b>Findings:</b> General: Based on observation, review of documentation and interview, this regulatory requirement was not met. It was reported by the facility that on 9/26/19, a staff person grabbed the wrist of a three-year-old female child while outside on the playground. Interviews with staff found that the child would not get in line to come inside and ran from the staff person. The staff person ran after the child and grabbed her by the wrist in an aggressive manner. The staff person picked the child up by the wrist causing the child's feet to leave the ground. Interviews with staff also found that the staff person yelled at the child. It should be noted that the staff person was suspended for three days as a result of her inappropriate actions.
