Findings:

General: Based on observation, a wall had been removed between the Activity Room and One-Year-Old Class. Interview with director determined the wall was removed in September or October 2016 and the center did not notify the Department of Housing, Buildings and Construction, State Fire Marshal's Office, and Division of Regulated Child Care of the renovation/construction of the entranceway. Interview with staff determined children were not present in the center during the demolition of the wall or the construction of the entranceway.
