| Supervision | Not In Compliance |
| 100 - Activity Areas/Equipment/Materials | Not In Compliance |
| 922 KAR 2:120. Section 3. General Requirements. | |
| (2) Activity areas, equipment, and materials shall be arranged so that the child's activity is adequately supervised by staff. | |
| Findings: | |
| Based on interview, this regulatory requirement was not met. The staff person in charge described what she observed on facility video footage. On 9/8/21, at approximately 10:32 a.m., one staff person was changing a child's diaper while a second staff person was in the back-half of the Green Frogs Classroom (one-year-old room) with a small group of children. During this time, three children were involved in an altercation which resulted in one of the children getting bit on the arm and leg. | |
| The staff person, positioned in the back-half of the classroom, stated during interview that she was not aware of the altercation between the children. The staff person changing a child's diaper stated during an interview that she "heard a commotion"; however, she did not know what had occurred because she could not see the children from the diaper changing table. The activity that the staff were involved in did not allow them the ability to adequately supervise the children's activities throughout the classroom. | |
| Staffing Requirements | In Compliance |
| General Administration | Not In Compliance |
| 225 - Licensee Responsibility | Not In Compliance |

| Findings: | |
| Based on interview and record review, this regulatory requirement was not met. The following was found: | |
| 1. An interview with staff during the investigation revealed that on 9/8/21 at approximately 10:30 a.m., a staff person reached to pick up a child and scratched another child on the face by accident. The staff person completed an accident report stating, "In attempt of stopping the child from hurting another student, I accidentally scratched her cheek when I tried to catch her". | |
