**690 - Sink** **Not In Compliance**

**922 KAR 2:120. Section 12. Toilet, Diapering, and Toiletry Requirements.**

**(3) A sink shall be:**

- (a) Located in or immediately adjacent to toilet rooms;
- (b) Equipped with hot and cold running water that allows for hand washing;
- (c) Equipped with hot water at a minimum temperature of ninety (90) degrees Fahrenheit and a maximum of 120 degrees Fahrenheit;
- (d) Equipped with liquid soap;
- (e) Equipped with hand-drying blower or single use disposable hand drying material;
- (f) Equipped with an easily cleanable waste receptacle; and
- (g) Immediately adjacent to a changing area used for infants and toddlers.

**Findings:**

General: Based on observation, the surveyor found the following:

- The hot water temperature of the sink located in the Extended Day Classroom measured one hundred and twenty-four (124) degrees Fahrenheit.
- The hot water temperature of the sink located in the Part Day Classroom measured seventy (70) degrees Fahrenheit.
- The hot water temperature of the sink located in the Part Day Classroom's restroom measured eighty (80) degrees Fahrenheit.
- The hot water temperature of the sink located in the restroom outside of the Part Day Classroom measured seventy (70) degrees Fahrenheit.

Therefore, the water temperature of the sinks did not fall within the required minimum ninety (90) degrees Fahrenheit and maximum one hundred and twenty (120) degrees Fahrenheit. Staff stated they would request someone come adjust the temperatures.
