Findings:																															
<p>General: Based on interview and review of documentation, this regulatory requirement was not met. Documentation reviewed included daily sign-in/sign-out sheets documenting the time of arrival and time of departure of children on 9/8/2021, staff schedules, staff clock in and out time as well as documentation noting the transition of children from room to room. The surveyor found that on 9/8/2021 between 7:30 a.m. and 7:50 a.m., there was one staff person with ten children ages five months to seventeen months old. The staff to child ratio with the age of the youngest child being five months old was over by five children.</p>
