Inspection Report	
Supervision	In Compliance
Staffing Requirements	In Compliance
General Administration	Not In Compliance
225 - Licensee Responsibility	Not In Compliance
922 KAR 2:090. Section 8. General. (1) A licensee shall: (a) Be responsible for the operation of the child-care center pursuant to this administrative regulation, 922 KAR 2:120, and 922 KAR 2:280; and (b) Protect and assure the health, safety, and comfort of each child.	
Findings: General: The child care center licensee failed to comply with regulatory requirements in regards to the health, safety and comfort of a child in care. Interviews and review of documentation revealed that during a diaper change, a plastic spray bottle of OdoBan Disinfectant Spray was knocked over, causing the chemical solution to spill all over a child and into their eyes. Interviews and review of documentation revealed that the severity of the injury was not communicated to the parents of the child, resulting in the child remaining in care and a delay in seeking medical care.	
Premises	Not In Compliance
565 - Inaccessible Items	Not In Compliance
922 KAR 2:120. Section 3. General Requirements. (7) The following shall be inaccessible to a child in care: (a) Toxic cleaning supplies, poisons, and insecticides; (b) Matches, cigarettes, lighters, and flammable liquids; and (c) Personal belongings and medications of staff.	
Findings: General: Interviews and review of documentation revealed that a spray bottle of OdoBan disinfectant spray was within reach of a child, resulting in injury to a two-year-old child in care. Interviews revealed that during a diaper change, a child knocked a bottle of OdoBan disinfectant spray off a metal shelf with their arms reach, resulting in the chemical solution splashing all over them and into both their eyes.
