<b>Supervision</b>	<b>In Compliance</b>
<b>Staffing Requirements</b>	<b>In Compliance</b>
<b>Director Requirements</b>	<b>Not In Compliance</b>
<b>335 - Staff Management/Policy Development/Supervision</b>	<b>Not In Compliance</b>

**922 KAR 2:090. Section 10. Director Requirements and Responsibilities.**  
**(1) A director shall:**  
**(e) Manage the staff in their individual job descriptions;**  
**(f) Assure the development, implementation, and monitoring of child-care center plans, policies, and procedures;**  
**(g) Supervise staff conduct to ensure implementation of program policies and procedures;**

**Findings:**

General: Based on observation, interview and review of documentation, this regulatory requirement was not met. Interviews with staff found that redirection and time out are used if a child exhibits inappropriate behaviors while at the facility. Staff indicated that when placing children in time out, the child is required to sit in a chair or put his/her head down on the table. Interviews with staff found that a three-year-old child who was not listening to staff and was violent towards the other children was required to stand with his face in the corner. During that time the staff person in charge recorded a video of the child's behavior. The staff person could be heard telling the child he has to "pay the consequences" when he is bad. The staff person could also be seen pushing the child into the corner and putting the child's arms down to his side. Interviews with staff found this method of discipline was demonstrated for staff by the child's parent. It was indicated that the parent uses this form of discipline at home. A review of the facility's written policy regarding discipline and guidance found that the use of time out by placing children in the corner is not part of the facility's written discipline policy.

**Findings:**

General: Based on observation, interview and review of documentation, this regulatory requirement was not met. Interviews with staff found that redirection and time out are used if a child exhibits inappropriate behaviors while at the facility. Staff indicated that when placing children in time out they are required to sit in a chair or put their head down on the table. Interviews with staff found that a three-year-old child who was not listening to staff and was violent towards other children was required to stand with his face in the corner. In a video recording of the incident, the staff person can be heard telling the child he has to pay the consequences when he is bad. The video also shows the staff person pushing the child into the corner and putting the child's arms down to his side.

It was found through interview with staff that children as young one-year-old are required to sit in time out in a chair or on a small couch in the classroom. It is not developmentally appropriate to require children who are one-year-old to sit in time out. In addition, it is not developmentally appropriate to tell a child he/she is bad.
