<b>480 - Infant/Toddler Combined with Older Children</b>	<b>Not In Compliance</b>

**922 KAR 2:120. Section 5. Infant and Toddler Play Requirements.**

**(2) Except in accordance with subsection (3) of this section or Section 2(2)(c) of this administrative regulation, an infant or toddler under twenty-four (24) months of age shall not participate in an activity with an older child for no more than one (1) hour per day.**

**(3) If a toddler is developmentally appropriate for a transition to a preschool age group, a toddler may participate in an activity with an older child for more than one (1) hour per day if:**

- (a) Space for the toddler is available in the preschool-age group;**
- (b) The staff-to-child ratios and group sizes are maintained based on the age of the youngest child;**
- (c) The center has a procedure for listing a transitioning toddler on attendance records, including a specific day and time the toddler is with either age group; and**
- (d) The child care center has obtained the signature and approval of the toddler's parent on the toddler's transition plan.**

**Findings:**

General: Based on observation, interview and review of documentation, this regulatory requirement was not met. A tour of the facility during the investigation found the Infant Room contained three children. The children ranged in age from five-months-old up to thirty-months-old. Based on interviews, these children were combined for more than an hour in the Infant Room and the staff in charge indicated that she thought the thirty-month-old child was one-year-old. The infant teacher stated that the oldest child was two-years-old. The staff in charge kept asserting that the infant teacher was wrong about the age of the oldest child in the classroom. The surveyor reviewed the child's file and she was thirty-months-old.
