922 KAR 2:120. Section 4. Premises Requirements.

- (20) An outdoor play area shall be:
 - (d) Safe from foreseeable hazard;
 - (e) Well drained;
 - (f) Well maintained;
 - (g) In good repair; and
 - (h) Visible to staff at all times.

Findings:

General: Based on observation, this regulatory requirement was not met. During the inspection the facility's outdoor play area was found dirty and in disrepair. The following was found:

- 1.) Green and yellow plastic toys were broken.
- 2.) The play area contained toys that were not put together, the pieces were laying on the ground.
- 3.) The cover on the sand table was in disrepair.
- 4.) The plastic table was dirty as well as the base for the shade umbrella.
- 5.) The red metal tube contained rust all over.
- 6.) There were few plants growing through concrete.
- 7.) The metal fence contained few spots that were tangled, not reaching the ground therefore creating gaps that children could get an arm or leg stuck. There was a spot on the fence that was not weaved through, and it created a sharp point that could hurt a child.
