Findings:

General: Based on observation, interview, and review of documentation, ratios and group sizes were not maintained. On 2/8/2022, 2/9/2022, and 2/24/2022, it was determined that the Toddler classroom exceeded staff-to-child ratio. There were two staff members present on each date, with the youngest child in this group being aged one.

On 2/8/2022, the classroom became over-ratio starting at 8:20 a.m., and the ratios were not remedied until 9:30 a.m.

On 2/9/2022, the classroom was over-ratio between 8:10 a.m. until 8:42 a.m. On 2/24/2022, the classroom became over-ratio starting at 8:10 a.m. until 8:30 a.m. The surveyor determined that on 2/8/2022, the classroom was over-ratio and group size by five students. On 2/9/2022, the classroom was over-ratio and group size by three students, and on 2/24/2022, the classroom was over-ratio and group size by four students.

Additionally, on the date of the inspection, the Infant classroom was found to be over-ratio and group size at 8:40 a.m. The staff person in this classroom moved a child to a different classroom and stated that he had only been in her classroom for approximately two minutes before being moved.
