- (1) The following shall be reported to the cabinet or designee and other agencies specified in this section within twenty-four (24) hours from the time of discovery:
- (a) Communicable disease, which shall also be reported to the local health department pursuant to KRS 214.010;
  - (b) An accident or injury to a child that requires medical care initiated by the child-care center or the child's parent;
  - (c) An incident that results in legal action by or against the child-care center that:
    - 1. Affects a child or staff person; or
    - 2. Includes the center's discontinuation or disqualification from a governmental assistance program due to fraud, abuse, or criminal conviction related to that program;
  - (d) An incident involving fire or other emergency, including a vehicular accident when the center is transporting a child receiving child care services;
  - (e) A report of child abuse or neglect that:
    - 1. Has been accepted by the cabinet in accordance with 922 KAR 1:330; and
    - 2. Names a director, employee, volunteer, or person with supervisory or disciplinary control over, or having unsupervised contact with, a child in care as the alleged perpetrator; or
  - (f) An individual specified in Section 6(4) of this administrative regulation meeting a disqualifying criterion or background check result pursuant to 922 KAR 2:280.

Findings:

General: Based on interview, the daycare did not report an injury of a child that required medical care. Interviews confirmed that a one-year-old child was injured on November 15, 2021 and received medical treatment as a result.

225 - Licensee Responsibility Not In Compliance

922 KAR 2:090. Section 8. General.

- (1) A licensee shall:
- (a) Be responsible for the operation of the child-care center pursuant to this administrative regulation, 922 KAR 2:120, and 922 KAR 2:280; and
  - (b) Protect and assure the health, safety, and comfort of each child.

Findings:

General: Based on interview, with staff it was unclear as to how the child received a injury resulting in the loss of her front baby tooth. Following the incident, the child did receive medical treatment. Although there were staff present at the time, neither staff could identify what happened to result in the injury.
