Findings:

General: Based on observation, it was found that upon arrival at the facility at 7:50 a.m. there was one (1) staff person with seventeen (17) children in the School-age Classroom. The children ranged in age from five (5) months to three (3) years. The staff person in the classroom indicated that there was another staff person down the hall changing a child's diaper. Approximately one (1) minute later, the staff person that had been down the hall came into the School-age classroom with another child. Between 7:50 a.m. and 7:54 a.m., two (2) more children arrived at the facility. At 7:55 a.m., one (1) of the staff person took five (5) infants and toddlers to the Infant classroom. This left one (1) staff person with fourteen (14) children in the School-age classroom. The children then ranged in age from two (2) years to five (5) years. Another staff person arrived in the School-age classroom at 7:56 a.m. That staff person stated that she had been in the back of the facility, checking classrooms.
