Findings:

General: Based on interview and review of documentation, the child care center director failed to assure compliance with regulatory requirements with regard to the health, safety and comfort of a child in care. Interviews with multiple staff members revealed a staff member handled a child inappropriately and restrained them. Review of video documentation revealed the following: a staff member restrained a child, the staff member was holding the child's arms behind the back, shoved the child onto a cot, picked the child up by the forearms, and then placed the child's arms behind their back again restraining the child. when another staff member entered the room and witnessed the child being restrained, she retrieved the child from the classroom.
