***Maximum Group Size shall be applicable only to Type I child-care centers.**

(b) The age of the youngest child in the group shall determine the:

- 1. Staff-to-child ratio; and**
- 2. Maximum group size.**

Findings:

General: Based on observation, interview and review of documentation, the child care center failed to maintain adequate staff to child ratios. Observation of the video recorded on a cellphone that was received for 4/27/2021 revealed there were ten (10) children present with one staff who was the sole caregiver of the children ranging in age from one to eight years of age. Therefore, they were four (4) children over the minimum staff to child ratios. Review of attendance records revealed that on 04/27/2021 fourteen (14) children had been signed in between 06:00 am to 07:30 am.

Observation of video received for 5/3/2021 revealed twenty-four (24) children present on the recording. There were twenty-two (22) children signed in between 06:00 am to 07:30 am. The children ranged in age from one to eight years old.

A visit was conducted at the center on 7/23/2021. Upon entering the child care center there was a group of children on the playground with two adults. Observation and interview with the adults revealed there were twenty-two (22) children. The children ranged in age from two to eight years of age. Therefore, the minimum staff to child ratios and maximum group size was exceeded by two (2) children.
