Findings:

General: Based on Interview, record review and review of recorded documentation, on June 20, 2017 at approximately 9:10 a.m. the staff person with a hire date of January 4, 2017 abruptly grabbed, shook and and drug a three-year-old male child while she was cursing at him. The three year old male child cried throughout the staff person's tirade towards him. Telephone interview with the male child's parent, revealed that later that evening she discovered a hand print was left on her son's arm as a result of the incident. The parent stated that once she observed the hand mark on her son, she took him to an emergency room for evaluation.
